

PRACTICAL USES FOR ACIDIC WATER

ASTRINGENT EFFECTS

Ionizer Setting: Lowest Acidic Water

Skin Breakouts – Helps minimize acne and skin discoloration, bumps, or rashes.

Washing the Face – Helps to make the skin smooth, and helps to improve the overall sheen and condition of your skin.

Hair Care – Rinse your hair with acidic water before and after shampooing to help minimize hair loss, dandruff, itchy scalp, and improve overall condition of hair.

Shaving – A great natural aftershave. Helps minimize rashes caused by shaving.

Bathing – Add 2 - 3 gallons to your bath to improve skin condition.

SKIN CONDITIONS

Ionizer Setting: Lowest Acidic Water

Athlete's Foot and Nail Fungus – Use as a warm water soak 20-30 minutes daily to speed recovery.

Burns – May help alleviate pain associated with burns and speed recovery.

Chapped Hands – Speed recovery.

Eczema – Keeps skin clean and minimizes itching, and accelerates recovery.

Insect Bites – Relieves itch and sting.

Minor Cuts, Scratches, Abrasions – Helps clean wounds and accelerate recovery.

Sunburn – Reduces redness and pain, and accelerates recovery.

ECO-FRIENDLY

Ionizer Setting: Lowest Acidic Water

Water Plants – Use for acid-loving house plants and outside plants.

Fresh Cut Flowers – Dip the stems in acidic water to extend the time they stay fresh.

Clean Glass – Substitute for glass cleaner for glass, mirrors, metallic surfaces and utensils.

Bleach – Acidic water has a natural bleaching action.

Cleaning – Clean your house without chemicals. Remove dirt and grime, reduce odors, clean any surface.

Hand Sanitizer – Wash your hands and keep it in a spray bottle to keep hands clean.

DISINFECTING PROPERTIES

Ionizer Setting: Highest Acidic Water

Food Preparation – Rinse fresh fruits and vegetables, meat and fish to help prevent contamination from e-coli and other types of bacteria.

Odors – Neutralizes strong odors, e.g. onion and garlic, on your hands. Use as an air freshener.

Dish Washing – Keep cutting boards, countertops, and sinks clean. Rinse dishcloths and sponges to slow bacteria growth and odors.

Dental Hygiene – Brush your teeth, massage your gums, use as a mouthwash, or gargle with acidic water.

Pet Care – After bathing, rinse your pets in acidic water for an overall healthier coat.
